Workshop on Disturbed Random Processes

• 2023年5月24日（周三） 14:00-21:50

[1] Critical Branching Processes in a Sparse Random Environment

Speaker: Dariusz Buraczewski (14:00-14:50)

[2] Properties of Solutions of Epidemiological Dynamical Systems with Impulse Perturbations

Speaker: Igor Samoilenko (15:00-15:50)

[3] Markov Chains on Compact Convex Bodies and Asymptotic Shape of Vantage Point Trees

Speaker: Oleksandr Marynych (16:00-16:50)

[4] On a Discrete Approximation of a Skew Stable Lévy Process

Speaker: Oleksandr Iksanov (18:00-18:50)

[5] A Stochastic Control Problem Arising from Relaxed Wealth Tracking with a Monotone Benchmark Process

Speaker: Lijun Bo (19:00-19:50)

[6] On Multidimensional Perturbed Random Walks

Speaker: Andrey Pilipenko (20:00-20:50)

[7] Branching processes in an Unfavorable Random Environment

Speaker: Congzao Dong (21:00-21:50)
